Course Code: 6116 | Duration: 8 Hours

## Course Description

This full-day end-user program is developed by Fall Protection Group and is accredited by the Oil Sands Safety Association (OSSA). The program will allow you to understand the use of fall protection as it relates to what you do at heights.

Various fall protection options exist; this course will identify which options may best meet your needs, and give you the tools and knowledge to work at heights safely.

The course material is energetically delivered and includes hands-on activities, video analysis, and focuses on student participation. The course is delivered by one of our highly qualified instructors.
